SKILLS

- **Languages:** C, JavaScript, Python
- **Frameworks:** HTML, CSS
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Problem-Solving Skills, Project Management, Adaptability

PROJECTS

Student-Expense-Tracker:

October 2025

- Developed a Student Expense Tracker to record, manage, and monitor daily student expenses efficiently.
- Implemented features to add, view, update, and delete expense records, helping users maintain organized financial information.
- Designed a simple and user-friendly interface for entering expenses and viewing spending details.
- Integrated expense categorization and total expense calculation to help students understand their spending patterns.
- Tech: HTML, CSS, JavaScript

Security system with laser and piezoelectric sensor:

March 2026

- The security system integrates a laser module focused on an light dependent resistor with a piezoelectric sensor to form a multi-layered perimeter defense.
- Arduino UNO microcontroller continuously monitors live signals from both sensors, comparing incoming voltage levels against pre-calibrated threshold values to evaluate boundary status.
- When an intruder physically interrupts the laser path or triggers floor vibrations on the piezo sensor, the system instantly processes the intrusion.
- An LED light turns on immediately to provide an instant visual alert, signaling a breach to security personnel, while simultaneously logging the trip event to the central microcontroller system.

CERTIFICATES

- Introduction to cyber security

February 2026
- Network Management Systems Fundamentals

January 2026

ACHIEVEMENTS

- **Completed C++ Certification from Infosys Springboard**
Demonstrating foundational programming and problem-solving skills.
- **Successfully completed a Community Development Project**
Contributing to digital/cyber awareness activities and gaining practical experience in community engagement.

EDUCATION

- **Lovely Professional University**

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.56**

Punjab, India
Since August 2025
- **Sri Chaitanya Junior College**

Pradesh
Higher Secondary Education; **Percentage: 96%**

Vijayawada, Andhra
May 2023 - March 2025
- **Keshava Reddy school**

Pradesh
Secondary Education; **Percentage: 94%**

Anantapur, Andhra
March 2023
